Finish off a course together and a special icon will commemorate the collaboration. Want your cannons to shoot coins? Go for it! In this game, you call the shots, and simple touch-screen controls and interactive tutorials make designing courses a snap. But overall, as you play and master new courses based around the Nintendo classic titles, there are a lot of new rewards to unlock, and you have a sleeker course design system for the game, with remastering a lot of the classic Mario soundtracks nicely. Super Mario Maker for the Nintendo 3DS, brings in a lot of the action that the Nintendo Wii U edition had, in a portable gaming challenge. The challenges are very different from the Wii U edition, as you can unlock and master 100+ levels of platforming in new various challenges and courses, based around the classic platformers of Mario's past, Super Mario Brothers, Super Mario 3, Super Mario World from the Super Nintendo days, and Super Mario U from the Wii U. That's one of many reasons that this is the must-play portable Mario™ game for inventive groups of friends and anyone yearning for never-ending Super Mario™ magic. Learn design tips and tricks from Mary O and Yamamura, then share your masterpieces via the StreetPass™ feature and local wireless. Collaborating has never been easier now that you can share incomplete courses with other players.

Graphically, the game looks great and the control is very precise for the platforming action for die hard Nintendo gamers.
